Rich Tucker
Tokheim Corporation
P.O. Box 360
Fort Wayne, Indiana 46801

#00-06

Dear Mr. Tucker:

Tokheim Models H311B, H312B, H322B and H324B Balance Dispensers

This is in response to your request for California Air Resources Board (CARB) approval of the Tokheim Models H311B, H312B, H322B and H324B balance dispensers equipped with vapor recovery.

As required by the Certification Procedures for Gasoline Vapor Recovery Systems at Service Stations, the approvals of the three State agencies are a precondition to certification by the Air Resources Board. The appropriate letters of approval have been received and are listed as follows:

Department of Food and Agriculture,
Division of Measurement Standards
June 11, 1993

Department of Occupational Safety and Health
May 7, 1993

Department of Forestry and Fire Protection
Office of the State Fire Marshal
February 21, 1996

I find that the use of the Tokheim Models H311B, H312B, H322B and H324B balance dispensers, when installed in accordance with the manufacturer's instructions, will not adversely affect the performance of vapor recovery systems on which they are installed. Therefore, the Tokheim Models H311B, H312B, H322B and H324B balance dispensers are certified for use with Phase II vapor recovery systems.

California Environmental Protection Agency
